PREFACE

The Financial terminology project was initiated by the Department of Arts and Culture (DAC) in collaboration with the Financial Services Board (FSB). The project was identified around 2015 and its focus was to develop an English source text in the first phase of the project. The second phase was aimed at providing target term equivalents in the other 10 official languages, namely: Sesotho, Setswana, Sepedi, Tshivenḓa, Xitsonga, isiNdebele, Siswati, isiZulu, isiXhosa and Afrikaans. The target language equivalents provided in the 10 official languages will be used to promote and facilitate the implementation of consumer financial awareness and education projects.

In terms of terminology development principles, it is essential to involve other language experts in the process to promote inclusiveness in language issues. Therefore, TCS and FSB deemed it necessary to have working meetings and consultative workshops in an attempt to finalise the term equivalents in all official languages. The list of all language experts that were involved in the project is on the acknowledgements page.

This multilingual term list currently has 400 terms and it covers a wide spectrum of fields in the financial world, namely: insurance, pensions, retirement funds, wills, investments and capital markets, financial advisory and intermediary services, tax, credit, banking and general financial business.

Terms were excerpted by TCS from the following FSB brochures and pamphlets: The Financial Services Board; The Role of the FSB; The Supervision of the South African Capital Markets; The Pension Fund Surplus; Retirement Funds; Collective Investment Schemes; Investors, Do you know your rights when investing in Shares?; Why would I want to buy Shares?; Role of Trustees; Capital Markets; What is The Purpose of the Financial Advisory and Intermediary Services (FAIS) Act?; What does the FSB do?; A Financial Guide for the Youth; Retirement; Unclaimed Pension Fund Benefits; What you need to know about a last will and testament; Important Tips for consumers when buying insurance policies; Assistance Business Brochures; Do you know enough about long-term

insurance?; Why should I have a Will?; The FAIS Act; Financial Services Board Act; Long-term Insurance Act; Short-term Insurance Act; Pension fund Act, etc. Booklets from FSB Consumer Education Departments were also used: Use your Money Wisely; Make the most of your Money; Make your Money Work for you. Other source material used: National Treasury Budget Review 2013; GEPF Members' Guide; Inputs from South African Insurance Association (SAIA).

This multilingual terminology project is available to consumers in general. The link **https://artsculturesa.wordpress.com/terminology-list** can be accessed on the DAC website.

ACKNOWLEDGEMENTS

This list of acknowledgements is a culmination of the process of consultation and collaboration with different stakeholders and collaborators.

Many stakeholders and collaborators contributed towards this project. It is not the intention of DAC to omit any collaborator who participated and gave input in this project, but our gratitute goes to all of them.

The following members were part of the core FSB project planning and co-ordinating team that played an active role in supporting both phases of the project, e.g. giving inputs on submitted terminology queries coming from the project, liaison and planning, and so on: Ms Charene Nortier, Mr Elliot Modisa, Mr Themba Mahlangu, Mr Sibusiso Mondlana, Mr Lyndwill Clarke, Ms Lezanne Botha, Ms Jabhile Mbele, Ms Chwayita Mtebele, Mr Tendani Mathobo and Mr Tebatso Mmereki.

The DAC and FSB would like to acknowledge and give special recognition to all collaborators who diligently prepared for and actively participated in the terminology meetings. Their commitment and willingness is highly appreciated.

EXPLANATORY NOTES

Entry words are alphabetised, with concept equivalents and synonyms of the source and target languages arranged below.

A term appears in the singular form, unless it occurs in the vocabulary in the plural form only.

To distinguish between homonyms and to avoid confusion, parts of speech are indicated by means of abbreviations after the entry word.
surrender *n.*
taxable *adj*.

Different kinds of information on the term itself may be given in the form of references in angle brackets immediately after the term to which they refer.
derivative instrument <*Preferred*>
derivative <*Not recommended*>
JSE Securities Exchange <*Obsolete*>
valuator <*Archaic*>
OTC market <*Short form*>

According to TCS methodology British spelling is preferred and used.
pay cheque <Great Britain> vs. *paycheck* <United States>.

Terms that originated in South Africa and used in the South African context are indicated as such.
National Credit Regulator <Republic of South Africa>

A reference is added to some terms in order to get more clarity about the entry term, e.g. tangible asset <*see intangible asset*>.

Abbreviations and acronyms are treated as such.

Where a synonym appears as an entry term it is referred back to the main entry or preferred term usually containing the contextual information.
CA → chartered accountant
PIN → personal identification number

Synonym equivalents in the target languages are usually arranged in the order of preference of usage. See *car finance*.

Context words, phrases, or sentences, and near-definitions are used to indicate the meaning or context of a term, and appear in brackets {} in the source language.
accrued income *{investment}*
accrued income {*services rendered*}

Neologisms: as technology evolves, languages also evolve. New or relatively new concepts were also excerpted and listed.
phishing *{scam}*
crowdfunder *{one who uses the Internet to, e.g. fund projects}*
point of sale *{a device}*

Definitions are not printed due to copyright issues.
