1. Introduction

The General Code of Conduct of the Financial Advisory and Intermediaries Services Act, No 37 of 2002 (FAIS) sets out requirements for the management of conflict of interests. Financial Services Providers (FSPs) have a responsibility to ensure that they improve the quality of the financial services that are rendered to clients and that no situation is allowed where a provider or a representative has an actual or potential interest, which will influence the objective performance when providing a financial service to a client.

The FAIS General Code of Conduct for Authorised Financial Services Providers (FSPs) and Representatives (the Code) stipulates that OUTsureance may not offer or receive a financial interest – which includes for example cash, cash equivalent, voucher, gift, service, advantage, benefit, discount, domestic or foreign travel, hospitality, accommodation, sponsorship, other incentive or valuable consideration - to or from another FSP or third party as defined in the Code.

Conflict of Interest should be avoided and if not possible mitigated in which case such conflict must be disclosed to the client. Immaterial financial interests (as defined in the Code) are not disclosed but captured and monitored in a central register.

We also have to ensure that staff members who are on a performance based salary system are closely monitored to ensure that quality and the delivery of fair customer outcomes are not sacrificed due to focus on quantity performance measurements.

In addition to the above, FSPs and representatives may not offer or receive sign-on bonuses as defined in the Code other than to a new entrant as an incentive to become a Category I provider that is authorised or appointed to give advice.

This conflict of interest management policy for OUTsureance and OUTsureance Life Insurance Company (collectively referred to as “OUTsureance”), provides measures to identify, manage, avoid and mitigate existing and potential conflicts of interests within the OUTsureance environment, and sets out the roles and responsibilities of the relevant parties in this regard.

3. Policy Aim and Scope

3.1 Purpose

The objective of this policy is to provide a framework with regards to the identification, avoidance, mitigation and management of conflicts of interest in OUTsurance, in order to ensure that OUTsurance business practices are in line with our commitment to provide quality service and to avoid any situation in which OUTsurance has an actual or potential interest that may, while rendering a financial service to a client:

- influence the objective performance of its obligations to that client;
- prevent itself from rendering an unbiased and fair financial service to that client, or from acting in the best interests of that client; or
- prevent fair customer outcomes.

Including, but not limited to –

- a financial interest;
- an ownership interest; or
- any relationship with a third party; and
- ensure compliance with regulatory requirements;
- avoid legal liability and reputational risk arising from conflicts of interest.

3.2 Scope

This policy applies to OUTsureance and OUTsureance Life, FSP 896 and FSP 51691, and all its representatives. It applies to any situation where a conflict of interest or a potential conflict of interest exists in the rendering of financial services to clients. Herein after referred to as OUTsureance.

With regards to the OUTsureance representatives, the following applies with regards to financial interest:

A provider may not offer any financial interest to a representative of that provider:

- i. that is determined with preference to the quantity of business secured for the provider without also giving due regard to the delivery of fair outcomes for clients; or
- ii. for giving preference to a specific product supplier, where a representative may recommend more than one product supplier to a client; or
- iii. for giving preference to a specific product of a product supplier, where a representative may recommend more than one product of that product supplier to a client.
- iv. a sign-on bonus unless the representative is a new entrant as an incentive to become a representative appointed to provide advice.

For purposes of (i) above, a provider must be able to demonstrate that the determination of and entitlement to the financial interest takes into account measurable indicators relating to the–

- i. achievement of minimum service level standards in respect of clients;
- ii. delivery of fair outcomes for clients;
- iii. quality of the representative's compliance with this Act;

as agreed between the provider and the representative and that sufficient weight is attached to such indicators to materially mitigate the risk of the representative giving preference to the quantity of business secured for the provider over the fair treatment of clients.

This policy is also applicable to OUTsureance and OUTsureance Life as providers and its relationship with a third party.

A provider or its representatives may only receive or offer the following financial interest from or to a third party:

- i. Commission authorised under the Long Term Insurance Act, 1998 (Act No. 52 of 1998) or the Short Term Insurance Act, 1998 (Act No. 53 of 1998)

- ii. Fees authorised under the Long Term Insurance Act, 1998 (Act No. 52 of 1998), the Short Term Insurance Act, 1998 (Act No. 53 of 1998) or the Medical Schemes Act, 1998 (Act No. 131 of 1998);
- iii. Fees for the rendering of a financial service in respect of which commission or fees referred to in subparagraph (i) or (ii) is not paid, if
 - a) the amount, frequency, payment method and recipient of those fees and details of the services that are to be provided by the provider or its representatives in exchange for the fees are specifically agreed to by a client in writing; and
 - b) those fees may be stopped at the discretion of that client
- iv. Fees or remuneration for the rendering of a service to a third party;
- v. Subject to any other law, an immaterial financial interest; and
- vi. A financial interest, not referred to under subparagraph (i) to (v), for which a consideration, fair value or remuneration that is reasonably commensurate to the value of the financial interest, is paid by that provider or representative at the time of receipt thereof.

A provider or its representatives may also only receive or offer the financial interests referred to in (ii), (iii) and (iv) above if:

- i. those financial interests are reasonably commensurate with the service being rendered, taking into account the nature of the service and the resource, skills and competencies reasonably required to perform it;
- ii. the payment of those financial interests does not result in the provider or representative being remunerated more than once for performing a similar service;
- iii. any actual or potential conflicts between the interests of clients and the interests of the person receiving the financial interests are effectively mitigated; and
- iv. the payment of those financial interests does not impede the delivery of fair outcomes to clients.

3.3 Approach

The identification, management, avoidance and mitigation of all potential conflicts of interest is a requirement in terms of the Code. It is further good business practice as it avoids legal liability and reputational risk. OUTsurance is therefore required to ensure that all existing and potential conflicts of interest are properly managed if allowed to exist or altogether avoided or mitigated if possible.

The risk of conflicts of interest not being properly managed and controlled is, amongst others, that investors and customers may not be adequately protected which leads to poor customer outcomes, confidence in our services could be undermined and legal claims may be instituted.

It is important to note that the definition of conflicts of interest for the purpose of this policy only relates to the definition and provisions set in the Code.

Over-reliance on disclosure, without adequate consideration as to how conflicts may appropriately be managed, is not sufficient.
